Notes:

*BASIX Certificate -

- ◆ Swimming Pools – pools over 40,000L requires a BASIX certificate to be issued for the development
- ◆ Alterations and Additions to existing dwelling – depending on the extent of the alteration and additions BASIX Certificate may ne required for the development.

*Section 68 Application –Local Approval applications which are used for a number of different Local Approvals that may be required for development works across the Shire. Approvals include but not limited to Installation and Operation of an OSSMS, Installation of Manufactured Dwelling, Stormwater Connection, Connect to Council services (water and sewer).

*Bushfire Assessment – If your property is located within a Bushfire Prone area then a Bushfire Assessment will be required to be completed and sent in with your application. Should your application require concurrence from the NSW RFS further fees will apply

*Colour Scheme – Council has an adopted Development Control Plan which is available on Councils website. This Plan indicates what Council will accept as the colour scheme, external finishes and materials.

*Proof of costs – The cost of the development must be reflecting of current markets and costs for both material and labour must be included in the cost for development.
