2 INFORMATION REQUIREMENTS FOR APPLICATIONS

There are a number of steps that an application must go through prior to a determination being made by Council. The level of general and specific information to be supplied varies depending on the development type, the development site, as well as, the relevant legislation and acts that need to be satisfied.

Appendix A of this DCP provides a guide to Information Requirements for Applications and the general conditions that must be met by all applications for Development Consent in regards to particular development types or where an application is non-compliant with a Planning Provision. It is advised however that this list is not comprehensive and that additional information may be required by the Council.
